Who We Are?

2008 amid global economic crises with an entrepreneurial mind set, and humble beginnings two of us aspiring souls through innovation to launch a new firm specializing in software engineering & IT transformation in Jordan; we called it "Transition Tech".

Through a consistent application of best practices in project management and software development, our position achieved tremendous milestone.

Today, Transition Tech is a hive of young talented software developers and engineers guided by corporate values and a strategic vision. Owing to their dedication and tailor-made, agile solutions; Transition Tech has carried out successful projects across a range of industries in the MENA region.

The upcoming 10 years will see exciting time ahead providing much needed creativity, dynamic IT transformation with solutions & tools that match the next era of market demands.
